

Grief Garden is committed providing meaningful education and training to students seeking a career in child life. The Grief Garden child life practicum accepts one student per practicum semester (Fall, Spring, & Summer) when able to furnish the program; please review website for up-to-date offerings. While the [Association of Child Life Professionals](#) (ACLP) does not require a practicum experience, we believe that a child life practicum at Grief Garden will help prepare students for the clinical internship experience that is required for certification. If you have interest in applying for this practicum, please complete this application below and return by the appropriate ACLP application deadline, along with your most updated resume and a copy of your unofficial transcripts to griefgardenne@gmail.com
